

4 Key Questions to ask before

CHOOSING a puppy?

1.WHY a Puppy?

WHY would you like to welcome a puppy into your family? EG: unconditional love; emotional support; assistance dog; protection; sport/recreation; playmate for children; exercise more; children go outside more; meet new people; laugh and love; have a best friend. *There's lots of great reasons*

2. WHICH BREED?

Consider WHICH BREED suits your family's needs, lifestyle, and your reasons for getting a puppy - including:

- size as an adult dog; temperament; trainability;
- time you can commit to caring for physical/emotional/ social needs of puppy/dog;
- size of your home and yard; exercise requirements of the breed;
- allergies to dogs or tolerance of coat shedding;
- age of children/grandchildren;
- your budget for puppy purchase AND for ongoing food, care, treatment, grooming and vet costs

3. WHERE to get your puppy from?

Rescue or Purchase?

When looking for your new puppy you can visit your local shelter/ rescue to see if they have a suitable, temperament tested **(eg suitable for children)** puppy/dog of a breed which meets your lifestyle/family needs.

OR you can purchase a puppy from a dog breeder.

Puppy Scams ...

To avoid puppy scams click the link below for list of dog Breeding Associations and the scams currently operating/being shut down

https://fakepuppysitesaustralia.info/

Breeders

Unfortunately not all breeders are ethical and trustworthy. We highly recommend contacting registered breeders (registered with a breeding Association and their Local Government Council) who will provide you with information about the breed of puppy you are interested in.

Registered breeders will meet their Association's Code of Ethics.

4. How to Find a Registered BREEDER?

Registered Breeders

Registered breeders will :

- meet all the requirements of their local Code of Breeding Practice for Breeding Dogs
- meet or exceed all Animal Welfare requirements
- provide their Breeder Identification or Source Number
- plan their litters as part of a breeding program
- provide information & pictures of the puppy's parents
- provide any DNA results they have for the parents/puppies
- provide information on how to prepare for your puppy
- provide information on how to care for your puppy including exercise, nutrition, general health & grooming
- provide microchipping and vaccination certificates
- desex the puppy or have a desexing requirement
- provide a health guarantee
- provide a refund and returns policy
- provide a life-time rehoming guarantee *

(*so no puppy they breed will ever end up in a shelter)
